PERSONAL STATEMENT

I'm a 25 years old Web Developer & UI/UX expert from Mazar-e-sharif (Afghanistan) currently based in Kabul. I love user interfaces, graphic design, animations and just anything related to Front-End.

I have 3 years of experience working as a freelance and working on web design/developpe, graphic design and simple 2D animations! I love working with people, specially if they have the same passion I have for what they do. Last but not least I should always be equipted with a Mac and Coffee in order to work properly!
